FIGURE 2. NADVORNAYA FIXED FIELD SITE.

This report supplements NPIC/R-188/63, 1/ which discusses the Nadvornaya MRBM Complex, previously consisting of two Type I and one Type IV MRBM launch areas, together with a rail-to-road transfer point.

The Nadvornaya Fixed Field Site (Figure 1) is situated on flat terrain in a forested area 4.5 nautical miles (nm) east-southeast of Nadvornaya Launch Area No 2, and 3.8 nm north-northeast of Ivanovtsy in the Ukrainian SSR. The site was first identified in [REDACTED]

[REDACTED] not present in [REDACTED] Nadvornaya Launch Areas No 1 and 2 were probably complete when first observed in [REDACTED] Nadvornaya Launch Area No 3, identified in [REDACTED] appeared complete in [REDACTED] Launch Area No 1 is located 8.0 nm west of the field site, and

Launch Area No 3 is located 10.2 nm to the north-northwest.

The field site probably utilizes a rail-to-road transfer point located at Otynya 6.4 nm to the north-northwest. Improved roads interconnect the field site and the three launch areas with this point.

The fixed field site (Figure 2) consists of four interconnected padlike clearings each oriented to approximately 350 degrees. The northern padlike clearings are separated by approximately 480 feet, and the separation between the southern padlike clearings is approximately 450 feet. The westernmost padlike clearings each contain an unidentified object positioned near the center of each clearing. No other activity is observed at the fixed field site.
